Care And Cleaning

Notes for Cleaning the Booster Seat

- To maintain the proper functionality of the booster seat, please ensure that only original replacement seat covers are used. Replacement seat covers are essential for the correct performance of the car seat and are available from your retailer or authorized branches.

The booster seat must not be used without the seat cover.

- The cover can be removed and washed with a mild detergent on the washing machine's delicate cycle (30°C). Follow the instructions on the washing label of the cover. The cover's colors may fade if washed at temperatures higher than 30°C. Do not spin dry, and never use an electric dryer as the fabric may separate from the padding.
- Clean plastic parts with soapy water. Do not use harsh cleaning agents such as solvents.
